Dear Jim,

I am just back from Italy and am addressing my email. As far as I know, the SPH Faculty has no organized thoughts about your article. Thus it seems inappropriate for the FEC to address such a matter. I suggest that if you are concerned with faculty reaction, you find the specific faculty who are involved and contact them.

Dear Ralph,

I am writing you, as FEC Chair, at the suggestion of Jerry Kominski. I would like to explore possible options for clarifying and correcting the record to the SPH Faculty regarding my May 17 BMJ paper and the resulting controversy. Because of the seriousness of the situation, I would appreciate a call at your earliest convenience.

Thank you very much.
