Re: Repeat Request for Jerrett Progress Report (CONTROL 64539)

Dear Dr. Ospital,

On February 2, 2011, I requested copies of five unredacted pages from the June 25, 2008 CARB Research Division Contract Quarterly Progress Report (April 1, 2008 - June 30, 2008) for Agreement 06-332 "Spatiotemporal Analysis of Air Pollution and Mortality in California Based on the American Cancer Society Cohort" by Dr. Michael Jerrett: Cover page (page 1) and Task #10 (pages 16-19). This research project has been jointly funded by CARB and AQMD. For clarity, I have attached a PDF file that contains the redacted version of these five pages, which originate from CONTROL 62386. Unfortunately, the attached February 10, 2011 AQMD response letter (CONTROL 64539) does not properly address my request: "THE REPORT OF RESULTS FOR THIS PROJECT IS NOT YET COMPLETED. THE FINAL REPORT SHOULD BE AVAILABLE SOMETIME AFTER MAY 2001 WHEN THE PROJECT IS COMPLETED." I did not request the FINAL REPORT for this project, which was originally scheduled to be completed in December 2009. I requested one specific portion (Task #10) of the *preliminary results*, as stated in the June 25, 2008 Quarterly Progress Report. Thus, I request that you reconsider my February 2, 2011 request. If there is a clear legal reason that you cannot send me copies of the unredacted pages that I have requested, I would, as a temporary compromise, be satisfied if I could view these five pages at your AQMD office and take notes as soon as possible during February or March 2011.

I am currently preparing my case for reappointment to the faculty position that I have continuously held at the UCLA School of Public Health (SPH) since July 1, 1976. I have substantial evidence that I was notified of non-reappointment to this position in 2010 in large part because I have engaged in successful whistleblowing against a very influential SPH faculty member and because I have published and prominently presented important epidemiologic evidence that contradicts the CARB claim that fine particulate air pollution and diesel particulate matter are responsible for thousands of premature deaths in California. A hearing regarding my reappointment is scheduled to take place at UCLA during April 2011 and thus, in order to prepare my strongest case for reappointment, it is important that I see the pages that I have requested as soon as possible.

Specific details related to my UCLA non-reappointment case are contained in the September 2,

2010 press release by the Foundation for Individual Rights in Education (<http://www.thefire.org/article/12216.html>), the October 10, 2010 Bakersfield Californian article by Lois Henry "Air board must be held accountable" (<http://www.bakersfield.com/news/local/x618251275/Air-board-must-be-held-accountable>), and the August 10, 2010 letter to UCLA Chancellor Gene D. Block by California businessmen who strongly support my reappointment (<http://killcarb.org/2010081201-enstrom.html>). Please review my request with AQMD Executive Officer Barry Wallerstein and AQMD Principal Deputy District Counsel John Olvera.

Thank you very much for your prompt attention to this important matter.

Sincerely yours,

James E. Enstrom, Ph.D., M.P.H.

Dear Lisa,

I am writing regarding your July 27, 2010 response to a California Public Records Act request by Jeff Lasse (CONTROL 62386). Following conversations with both you and Dr. Jean Ospital, I am making a new request related to a small portion of the CONTROL 62386 document. Specifically, I request copies of the following five unredacted pages from the June 25, 2008 CARB Research Division Contract Quarterly Progress Report (April 1, 2008 - June 30, 2008) for Agreement 06-332 "Spatiotemporal Analysis of Air Pollution and Mortality in California Based on the American Cancer Society Cohort" by Dr. Michael Jerrett: Cover page (page 1) and Task #10 (pages 16-19). For clarity, I have attached a PDF file that contains the redacted version of these pages from the CONTROL 62386 document. I urgently need these unredacted pages as part of an ongoing proceeding regarding my faculty position at UCLA. If you cannot get approval to send these unredacted pages to me this month (February 2011), I will send you specific details about my UCLA situation and a strong legal basis for this request.

Thank you very much for your assistance regarding this important request.

Sincerely yours,

Jim
