Dear Dissertation Committee Members,

I am writing because you served on the Committee for the July 19, 2017 Georgia Institute of Technology PhD Dissertation of **Lucas Richard Fath Henneman**: “Air pollution accountability: Assessing regulatory impacts on emissions and air quality” (<https://repository.gatech.edu/entities/publication/e003d293-e623-4619-9401-772a006fe578>). I request your assessment of my Allegation of Research Misconduct in the November 24, 2023 *Science* Research Article “Mortality risk from United States coal electricity generation” by Dr. Henneman (<http://www.scientificintegrityinstitute.org/Henneman030524.pdf>). This request is directly relevant to the integrity of both environmental epidemiology and US energy policy and I would greatly appreciate your response.

Thank you very much for your consideration.

Sincerely yours,

James E. Enstrom, PhD, MPH, FFACE
Retired UCLA Research Professor (Epidemiology)
President, Scientific Integrity Institute
